

OOP TUTORIAL 1

```
Microsoft Windows [Version 10.0.26200.8328]
(c) Microsoft Corporation. All rights reserved.

C:\Users\Acer>java --version
java 26.0.1 2026-04-21
Java(TM) SE Runtime Environment (build 26.0.1+8-34)
Java HotSpot(TM) 64-Bit Server VM (build 26.0.1+8-34, mixed mode, sharing)

C:\Users\Acer>javac --version
javac 26.0.1

C:\Users\Acer>
```

Screenshot 1: Java Installation Verification

This screenshot displays the successful installation of the Oracle JDK on my local machine. By running the `java --version` and `javac --version` commands in the terminal, I have verified that the system environment variables are correctly configured to run and compile Java applications

Screenshot 2: IDE Setup and Project Workspace

This screenshot demonstrates that IntelliJ IDEA Community Edition has been successfully installed and configured with the Java Development Kit (JDK). The workspace shows the newly created project for the tutorial tasks, displaying the project directory structure and the initialized classes ready for development

Hello World Execution

Hello World Program

```
public class Main {  
    public static void main (String [ ] args)  
    {  
        System.out.println ("Hello, Java World !");  
    }  
}
```

Handwritten Code

OUTPUT

```
Run Main x  
"C:\Program Files\Java\jdk-26.0.1\bin\java.exe" "-javaagent:C:\Program Files\JetBrains\IntelliJ IDEA 2026.1.1\lib\idea_rt.jar=49757" -Dfile.encoding=UTF-8 -Dsun.stdout.encoding=UTF-8  
Hello, Java World!  
Process finished with exit code 0
```

Variables and Data Types

Variable and Data Types Program

```
public class Main {  
    public static void main (String [] args )  
    {  
        int age = 19;  
        double height = 5.8;  
        boolean student = true;  
        char grade = 'A';  
        String name = "Ruben"  
  
        System.out.println("Name : " + name);  
        System.out.println("Age : " + age);  
        System.out.println("Student : " + student);  
        System.out.println("Grade : " + grade);  
    }  
}
```

HANDWRITTEN CODE

OUTPUT

The screenshot shows the 'Run' window of an IDE with a tab labeled 'datatypes'. The command line at the top shows the execution of 'java.exe' with various JVM arguments. The output area displays the following text:

```
"C:\Program Files\Java\jdk-26.0.1\bin\java.exe" "-javaagent:C:\Program Files\JetBrains\IntelliJ IDEA 2026.1.1\lib\idea_rt.jar=6  
Name: Ruben  
Age: 19  
Height: 5.8  
Student: true  
Grade: A  
Process finished with exit code 0
```

Operators Program

Operators Program

```
public class operators {  
    public static void main (String [ ] args )
```

```
{
```

```
    int a = 10 ;
```

```
    int b = 5 ;
```

```
    System.out.println ("Addition : " + (a+b));
```

```
    System.out.println ("Subtraction : " + (a-b));
```

```
    System.out.println ("multiplication : " + (a*b));
```

```
    System.out.println ("Division : " + (a/b));
```

```
    System.out.println ("modulus : " + (a%b));
```

```
    System.out.println (a > b);
```

```
    System.out.println (a < b);
```

```
    System.out.println (a == b);
```

```
    System.out.println (a != b);
```

```
    System.out.println ((a > b) && (b > 0));
```

```
    System.out.println ((a < b) || (b > 0));
```

```
    System.out.println (! (a < b));
```

```
}
```

```
}
```

HANDWRITTEN CODE

OUTPUT

```
"C:\Program Files\Java\jdk-26.0.1\bin\java.exe" "-javaagent:C:\Program F  
Addition: 15  
Subtraction: 5  
Multiplication: 50  
Division: 2  
Modulus: 0  
true  
false  
false  
true  
true  
true  
true
```

User Input

User Input Program

```
import java.util.Scanner ;

public class userInput {
    public static void main (String [] args )
    {
        Scanner sc = new
        Scanner (System.in );

        System.out .print ("Enter first number : " );
        int a = sc.nextInt ();

        System.out.print ("Enter second number : " );
        int b = sc.nextInt ();

        int sum = a + b ;

        System.out.println ("Sum = " + sum) ;
    }
}
```

HANDWRITTEN CODE

OUTPUT

```
"C:\Program Files\Java\jdk-26.0.1\bin\java.exe" "-javaagent:
Enter first number: 1
Enter second number: 2
Sum = 3

Process finished with exit code 0
